

DOE and CIEMAT
Dose Assessment Meeting
November 2-4, 1992

Monday, November 2, 1992

9:00 a.m. Welcome and Introductions

9:30 a.m. Environmental Characterization - soil and biological
sample analysis

Lawrence Livermore National Laboratory - W. Robison
Procedures and Protocols - Copies to be provided
Equipment - Listing and capability (i.e., minimum
detectable activity, through-put, etc.)

12:00 noon Lunch

1:30 p.m. Environmental Characterization - continued

CIEMAT

Procedures and Protocols - Copies to be provided
Equipment - Listing and capability (i.e., minimum
detectable activity, through-put, etc.)

4:00 p.m. Environmental Characterization - Technology
Exchange

Split sample protocol
Quality control
Technology transfer

Tuesday, November 3, 1992

9:00 a.m. Whole Body Counting and Bioassay

Brookhaven National Laboratory - Ed Kaplan

Procedures and Protocols - Copies to be
provided
Equipment - Listing and capability (i.e.,
minimum detectable activity,
through-put, etc.)

12:00 noon Lunch

Tuesday, November 3, 1992 - Continued

1:30 p.m. Whole Body Counting and Bioassay - Continued

CIEMAT

Procedures and Protocols - Copies to be
provided

Equipment - Listing and capability (i.e.,
minimum detectable activity,
through-put, etc.)

4:00 p.m. Whole Body Counting and Bioassay - Technology Exchange

Split sample protocol
Quality control
Technology transfer

Wednesday, November 4, 1992

9:00 a.m. Medical Surveillance

Office of Health - George R. Gebus, M.D., M.PH

Medical Examinations of the exposed
population - protocols and procedures

11:00 a.m. Medical Surveillance - Continued

CIEMAT

Medical Examinations of the exposed
population - protocols and procedures

12:00 noon Lunch

1:30 p.m. Wrap-up

Schedule of visits to sites of interest

Technology exchange agreements

Open discussion
